

To: All Patients
The new year is approaching.

Just a friendly reminder that as the new year approaches, January 1st will also mark the RESET of most medical insurance policy's deductibles. Utilize your physical therapy benefits while there's still time in 2025 and before you will be required to fulfill a new amount in 2026 towards any out-of-pocket expenses.

Check your policies for any changes in the new year and note the reset of deductibles or change in any copays owed.

This year, Action PT was a drop off site for the U.S. Marine's "Toys for Tots" drive. All donors were placed into a drawing for a chance at a \$25 AMAZON gift card. Starting Monday, November 24th through Thursday, December 18th we accepted NEW, UNWRAPPED toys for children of all ages in order to make it a special Christmas for families across the area. Once again, our staff, patients (former and current) did not disappoint. Thanks, for your support and generosity. It means a lot to so many!

Congratulations

to our most current patients pictured who achieved their plan of care and were promoted from therapy - as well as those patients who wished to remain faceless.

It's been our sincere pleasure to treat you!

Be sure to follow us on Facebook, and watch the progress Latronya has been making throughout rehabilitation with us following knee surgery.

Currently in Week 9 of rehab, she is weight bearing and has reached many PT goals already.

We are so proud to feature this beautiful lady as she works toward full range of motion and strength.

Keep up the great work, Latonya!

CHRISTMAS PARTY

MERRY CHRISTMAS

HAPPY NEW YEAR
